

Exploratory construction-signal diagnostics

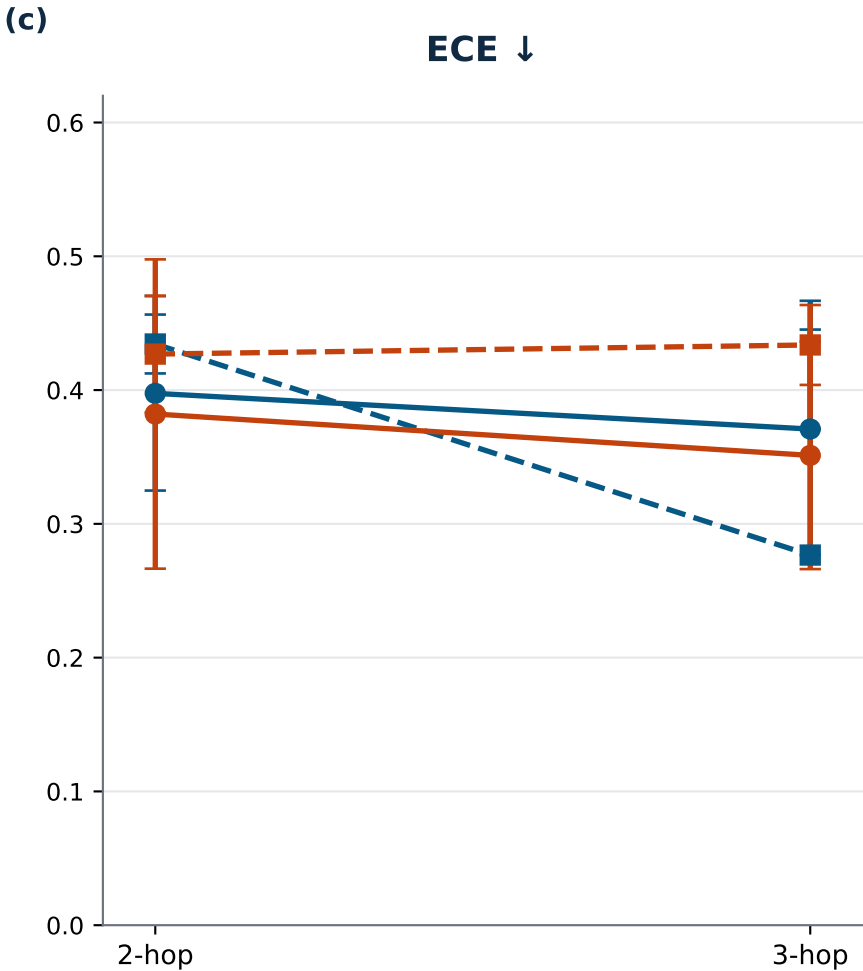

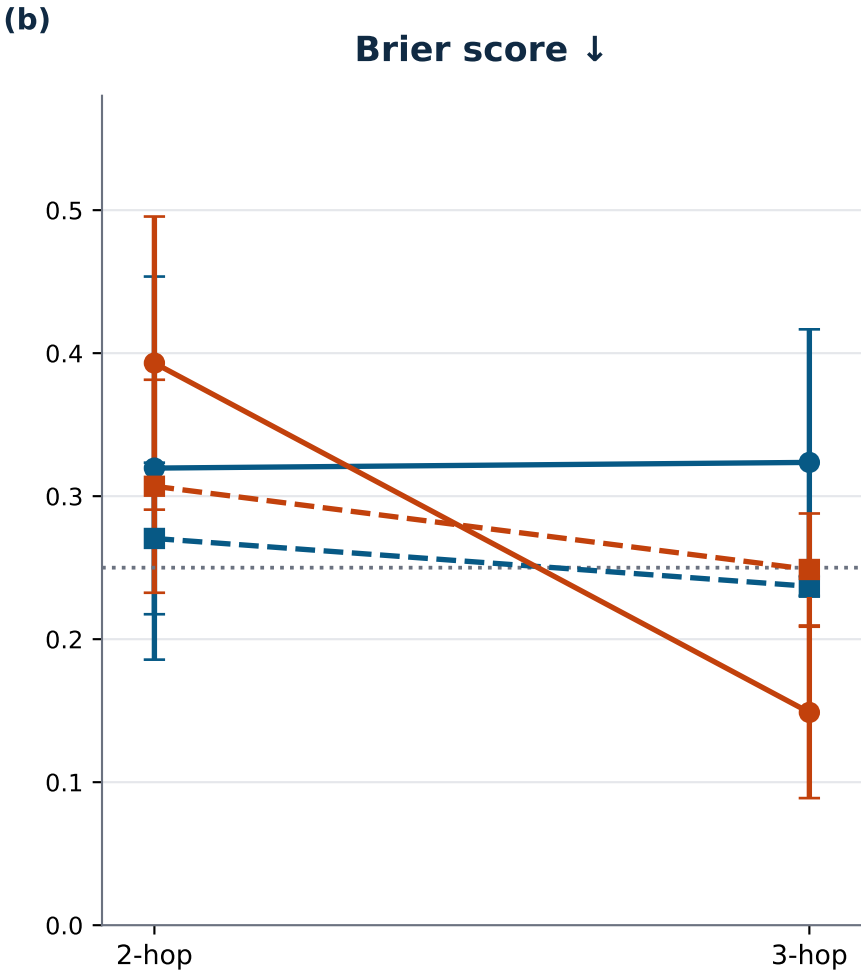

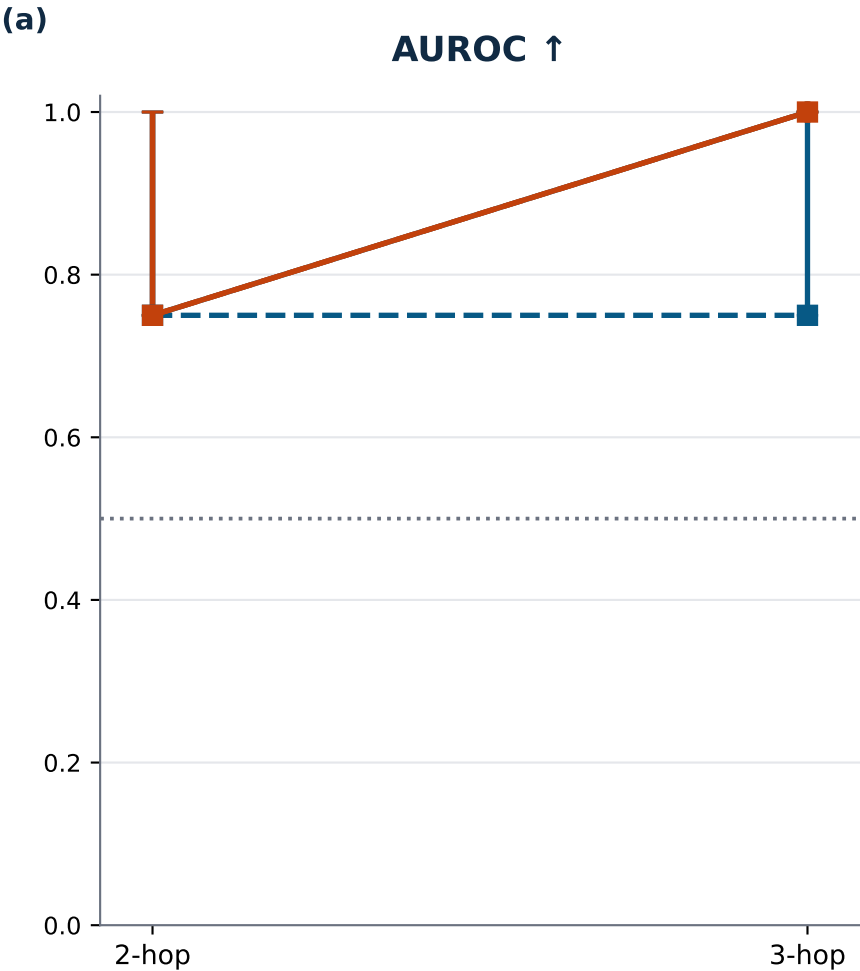

Thinking off · prespecified layer 40 · leave-one-match-group-out evaluation · two independent match groups

-  Goldowsky-Dill · Executor

 Goldowsky-Dill · Temporal path mean
-  Matched-pair LAT · Executor

 Matched-pair LAT · Temporal path mean

Solid lines show executor-only scores. Dashed lines show the mean score after the Worker 1 injection anchor.

Interpretation boundary: these scores distinguish whether an injection was present; they do not measure successful behavioral compromise.
